December Outing - Thornton Reservoir & Groby Pool

Saturday 7th December 2019

Meeting at the Reservoir Car Park at 0930, Thornton Reservoir is a large expanse of water surrounded by a good variety of pasture farmland and woodland habitat, providing excellent areas for birds. The reservoir boasts an impressive list of birds and in recent years has had a good reputation for hosting the odd rarity, however the main aim of this outing is to provide help in identifying the more common species of birds and a chance to meet the regulars of the LROS outings. Later if time permits we will also visit Groby Pool.

Directions:

From M1 Junction 22 take the A50 towards Leicester, at the Field Head island take the third exit along Thornton Lane, after crossing over the motorway take the next right down and along the dam wall, the reservoir car park is the first on the right.

To book a place please contact Andrew Cliff no later than Monday 2nd December 2019
Phone: 01530 814593 E-Mail - walkingbirdman@aol.co.uk

**Merry Christmas
& Happy New Year**
