December Outing - Cossington Meadows & Soar Valley

Saturday 12th December 2020

Meeting at Cossington Meadows Nature Reserve at the cricket pavilion car park 0900. Cossington Meadows has, over the last few years, established itself as an important habitat for birds in Leicestershire with an impressive species list including many rarities such as Great White Egret, Velvet Scoter, Water Pipit, Bearded Tit and Bittern. The main aim of this outing is to provide help in identifying the more common species of birds and a chance to meet the regulars of the LROS outings. If time permits we will also be visiting Wanlip Meadows in the Soar Valley later in the day.

Directions:

Exit the A6 bypass at Rothley, at the traffic lights (Red Lion Pub) turn right towards Cossington, after crossing the canal and river take the next left, the car park is on the right after a few hundred yards.

To book a place please contact Andrew Cliff no later than Monday 7th December 2020
Phone: 01530 814593 E-Mail - walkingbirdman@aol.co.uk

**Merry Christmas
& Happy New Year**
